**News Release** 

## TOYO Awarded Large-scale Photovoltaic Power Plant Project in Japan

June 9, 2014

**Toyo Engineering Corporation** 

Toyo Engineering Corporation (TOYO, President and CEO Katsumoto Ishibashi) has been awarded a large-scale photovoltaic power plant project planned in Okayama Prefecture, Japan by Pacifico Energy K.K.(President, Kazuomi Kaneto) The plant will have a power generating capacity of approximately 32 MW and is scheduled for completion in March 2016. The power generated will be sold to the Chugoku Electric Power Co., Inc.

Photovoltaic power generation, a system that produces renewable energy, is expected to play an increasingly important role from global environment conservation viewpoint. TOYO will continue to work on photovoltaic power plant projects as part of its infrastructure business.

## **Contract Summary**

■ Client: Pacifico Energy Kumenan G.K.

(Special purpose company invested by GE Group and Jamieson Group)

■ Contractor: Toyo Engineering Corporation

■ Site: Kumenan city, Kume-gun, Okayama Prefecture, Japan

■ Facilities: Photovoltaic power generation plant (32.256 MW)

■ Scope: Engineering, procurement of equipment and materials, construction and

commissioning

■ Completion: March 2016

■ Contract amount: Approximately 9 billion yen
