Mitsui Chemicals Announces Organization Restructuring

Mitsui Chemicals, Inc. ("MCI") (Toshikazu Tanaka, President & CEO) announced today that it will reorganize some operations effective October 1 2009 to respond to the challenges of the changing market environment, accelerate strength and expansion, and reinforce profitability while enhancing corporate value.

1. Purpose

(1) Strengthen Research & Development and New Businesses

- (a) Accelerate development of new products targeted for commercialization within 2-3 years.
- (b) Accelerate commercialization of large-scale next generation businesses in new market areas.
- (c) Strengthen production technology structure to support (a) and (b).

(2) Strengthen Public Relations

- (a) Strengthen public relations to accelerate communication related to company management to stakeholders and enhance corporate value.

2. Outline (See attachments 1 & 2)

(1) Strengthen Research & Development and New Businesses

Purpose	Changes
① Accelerate development of new products targeted for commercialization within 2-3 years.	Form [New Materials Development Center] (Responsible Officer: Akihiro Yamaguchi, Executive Vice President). Consolidate new product development functions of the Performance Materials Business Sector's Development Center and the Research Center.
② Accelerate commercialization of large-scale next generation businesses in new market areas.	Form [New Business Development Division] (Responsible Officer: Toshikazu Tanaka, President & CEO). Accelerate new business commercialization and development of new business models.

③ Strengthen production technology structure to support (a) and (b)	Consolidate [Technology Lab.] of the Performance Materials Business Sector's Development Center and part of the functions of the [Development Dept.] in the Advanced Chemicals Business Sector with the Production & Technology Center.
---	---

(2) Strengthen Public Relations

Change
(a) Separate public relations functions from the CSR & Corporate Communications Division (Corporate Social Responsibility Center) and form a new Corporate Communications Division (Responsible Officer: Toshikazu Tanaka, President & CEO).
(b) Change name of CSR & Corporate Communications Division to CSR Promotion Division .

3. Changes Effective

October 1 2009

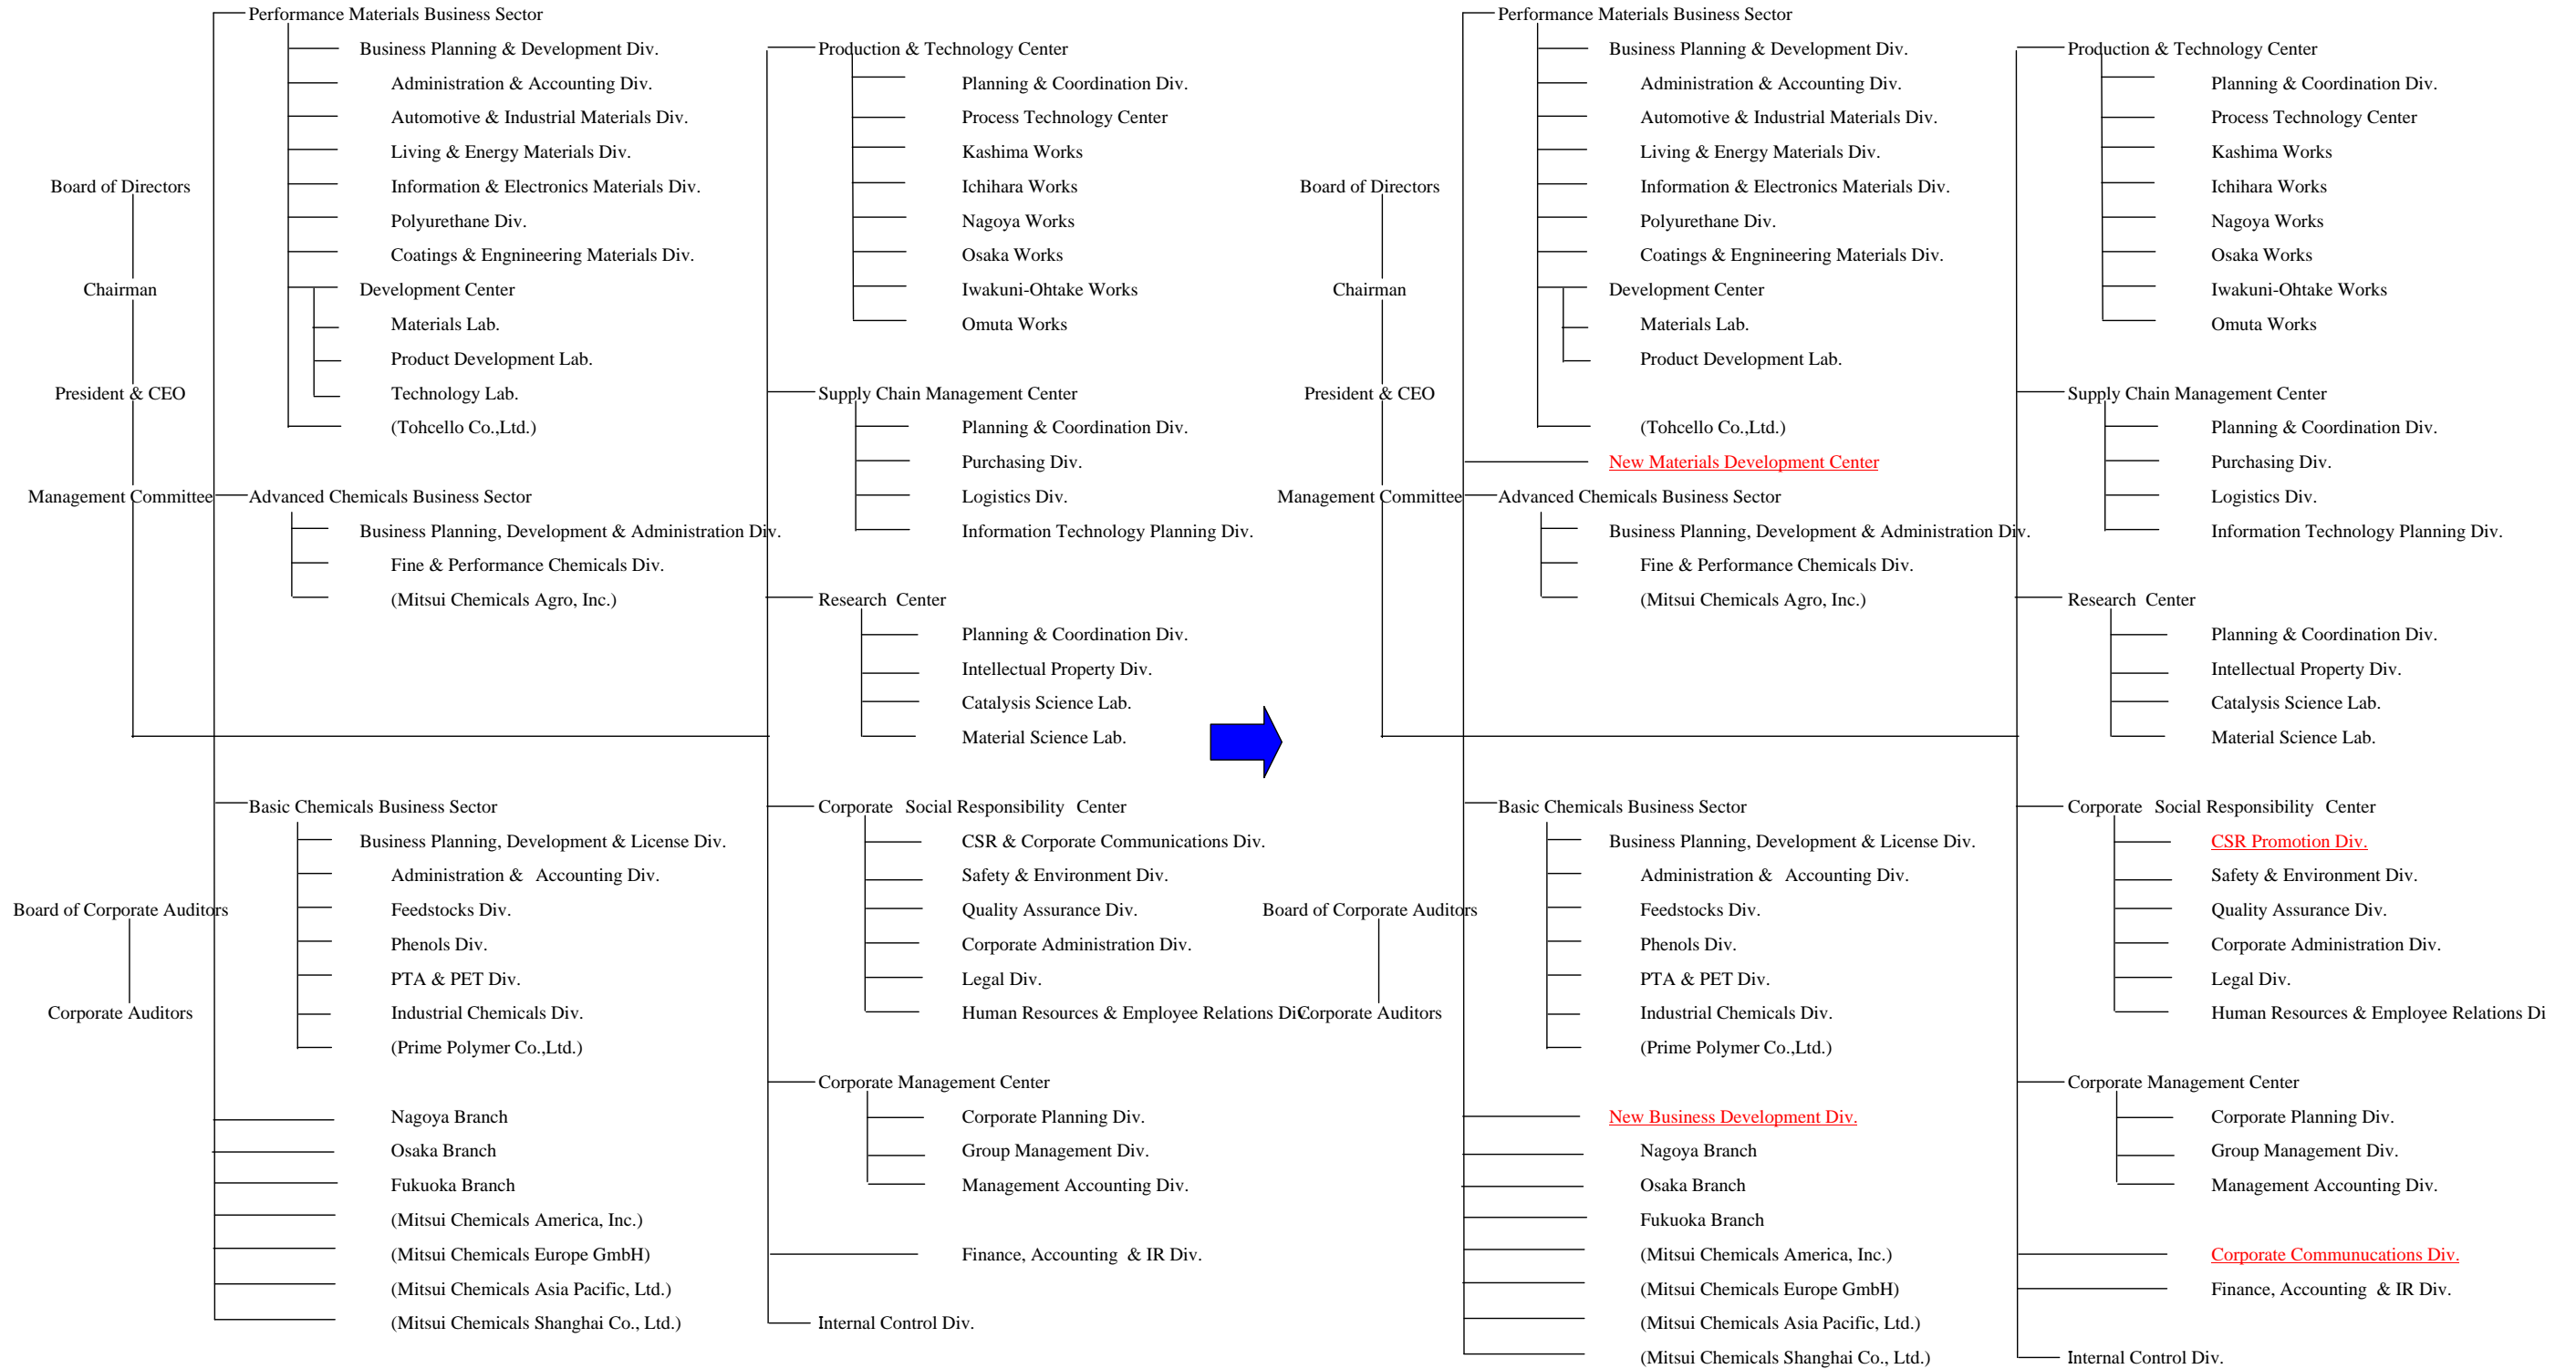

(Reference) Other Department Level Restructuring Effective October 1 2009

	Change	Purpose
1	Dissolve [Quality Assurance Dept.] in Business Planning & Development of the Performance Materials Business Sector.	Transfer quality assurance functions of the Performance Materials Business Sector to the Quality Assurance Division of the Corporate Social Responsibility Center
2	Form [Polymer Processing Dept.] in the New Materials Development Center.	Consolidate all functions related to the development of polymer processing
3	Change name of the EOG Dept. in the Industrial Chemicals Division to [Industrial Chemicals Dept.] . Some products currently under the Fine & Performance Chemicals Division's Specialty Chemicals Dept. (hydroquinone, resorcinol, etc.) will be transferred to the [Industrial Chemicals Dept.] .	Enhance market and client synergy of EOG Dept. products with products such as hydroquinone, resorcinol, etc.
4	Transfer functions of the [Process Safety & Disaster Prevention Technology Dept.] in the Safety & Environment Division to the Process Technology Center in the Production & Technology Center.	Reinforce process safety synergy by consolidating divisions with related functions to optimize process safety technology.
5	Form the [Collaboration Project Dept.] at Ichihara Works	Actualize production optimization project in the Chiba area.
